First Aid Merit Badge Workbook

This workbook can help you but you still need to read the merit badge pamphlet.

This workbook can help you organize your thoughts as you prepare to meet with your merit badge counselor. You still must satisfy your counselor that you can demonstrate each skill and have learned the information. You should use the work space provided for each requirement to keep track of which requirements have been completed, and to make notes for discussing the item with your counselor, not for providing full and complete answers. If a requirement says that you must take an action using words such as "show", "know", "tell", "explain", "demonstrate", "identify", etc., that is what you must do.

Merit Badge Counselors may not require the use of this or any similar workbooks.

No one may add or subtract from the official requirements found in the Scout Requirements (Pub. 35219 - 950 62159). The requirements were last issued or revised in 2015. - This workbook was updated in January 2018.

Scout's Name: _____ Unit: _____
Counselor's Name: _____ Counselor's Phone No.: _____

<http://www.USScouts.Org> • <http://www.MeritBadges.Org>

Please submit errors, omissions, comments or suggestions about the workbook to: Workbooks@USScouts.Org
Comments or suggestions for changes to the requirements for the merit badge should be sent to: Merit.Badges@Scouting.Org

1. Satisfy your counselor that you have current knowledge of all first-aid requirements for Tenderfoot, Second Class and First Class ranks.

NOTE: Excerpts from the Tenderfoot, Second Class, and First Class Rank Workbooks, showing the first aid requirements for those ranks can be found at the back of this notebook.

2. Do the following:

- a. Explain how you would obtain emergency medical assistance from your home, on a wilderness camping trip and during an activity on open water.

HOW TO USE A Blue Card to earn a merit badge

Front Back

STEP ONE

A few merit badges have prerequisites, but any registered Scout may work on any of them at any time (after his unit leader has signed the blue card acknowledging that the Scout is registered, has discussed the merit badge with his unit leader and has secured a registered counselor.) Scouts are free to choose any registered counselor (including their parents or other family members).

STEP TWO

The Scout calls the counselor and arranges to meet them. Meetings may happen at the counselor's office, work site, or home. They may begin discussing what the Scout already knows followed with coaching, guidance, and additional meetings. The Guide to Safe Scouting, and the "Sweet 16 of BSA Safety" must be followed. Scouts must not meet one-on-one with adults. Meetings must take place where others can view the interaction, or the Scout must have a buddy, a friend, parent, —or better yet, another Scout working on the same badge. The Scout should bring any required projects or evidence, such as photographs or certification.

The counselor records and initials the completed requirements and gives the Scout the whole blue card so he has a record of work completed to date.

when completed

STEP THREE

1. The COUNSELORS RECORD panel is filled out. The counselor removes this part of the blue card and keeps it.

2. The center panel is filled out and the counselor signs it.

3. The APPLICANTS RECORD panel is filled out and the counselor signs it.

When the Scout completes all the requirements with another registered counselor, or the same one he began working with, then he follows the directions at the right.

Scouts need not pass all requirements with one counselor. A subsequent counselor may choose not to accept partial work, but this should be rare. A Scout who believes he is being treated unfairly may work with his Scoutmaster to find another counselor. Partial's have no expiration except the 18th birthday.

Once It Is Earned, It's Earned

Once a registered and approved counselor has passed a Scout on requirements for a merit badge, it cannot be taken away. Unit leadership does not have the authority to retract approval, or take the badge away. If a merit badge counselor were found to be improperly documented, it would be a rare occasion when a Scout would be penalized for the mistake of an adult volunteer.

STEP FOUR

The center panel is given to the advancement chairman who records the achievement and indicate they have done so by initialing and dating the card.

When the badge and certificate are presented the date is noted here.

The APPLICANTS RECORD panel signed by the unit leader and the Scout keeps it with his other advancement records.

The Guide to Advancement is the official source for policies and procedures.

MERIT BADGE SERIES

MEDICINE

BOY SCOUTS OF AMERICA

MERIT BADGE SERIES

CITIZENSHIP IN THE WORLD

BOY SCOUTS OF AMERICA

Read more Botulism is a serious illness that affects the nervous system. Public Health is defined as "the art and science of preventing disease, prolonging life and promoting health through the organized efforts of society". You can also find digital handbooks and other leader resources in the BSA's Amazon Kindle library. Now live on Kindle Bookmark the BSA's Kindle library and keep checking back as more pamphlets will be uploaded in the coming weeks. Also, do not have standing water in your yard, since this is where mosquitos breed. Read more The herpes simplex virus, also known as HSV, is a viral infection that causes genital and oral herpes. You can prevent Lyme disease by wearing long pants and long sleeved shirt when hiking, applying insect repellent, keeping your yard mowed and free of brush, and checking yourself for ticks after being outdoors. Explain how Escherichia coli (E. coli) is a contagious bacterial infection that attacks your respiratory system. Most types of E. coli are harmless, but some can cause illness. You can prevent syphilis by avoiding sexual contact. You can always purchase hard-copy merit badge pamphlets through ScoutShop.org. Kindle versions are the same as the most current pamphlets available in print. Tell why this is important. Another resource you and your Scouts now have are digital merit badge pamphlets, available through Amazon Kindle. These pamphlets can be as small as a local neighborhood, or as big as an entire country or region of the world. It occurs when poisonous substances called botulinum toxins produce skeletal muscle paralysis. This dishwashing rack is sturdy enough to hold the standard three containers used for backcountry dish and utensil cleaning. Public Health Merit Badge Requirement 4: Vectors Explain what a vector is and how insects and rodents can be controlled in your home, in your community, and at camp. Ensure you have communicated with your Scoutmaster or Unit Leader prior to attending this and all other Badge Classes regarding your intent to complete the Badge. We highly recommend you complete the requirements sooner than later. Explain how the public health agency you visited is trying to reduce the mortality and morbidity rates of these leading causes of illness and death. Explain the role of your health agency as it relates to the outbreak of diseases. Discuss the kinds of public assistance the agency is able to provide in case of disasters such as floods, storms, tornadoes, earthquakes, and other acts of destruction. Then, pick any four of the following diseases and explain how each one is contracted and possibly prevented: gonorrhea, West Nile virus, botulism, influenza, syphilis, hepatitis, emphysema, meningitis, herpes, lead poisoning. You can download the electronic reader application on your phone or tablet. You may use a Badge Workbook as a learning aid to help you prepare. Read more Gonorrhea is a sexually transmitted disease which is caused by a bacterial infection. Tetanus and Diphtheria (every 10 years) Influenza (annual) COVID-19 (follow current recommendations) E coli AIDS/HIV Encephalitis Salmonellosis Lyme Disease Gonorrhea West Nile Virus Botulism Syphilis Emphysema Herpes Lead Poisoning Public Health Merit Badge Requirement 3: Water and Disease Discuss the importance of safe drinking water in terms of the spread of disease. Lead-based paint and lead-contaminated dust in older buildings are common sources of lead poisoning in children. Related Interactive Online Badges are Open to ALL Scouts in ANY Council. A tour of the Public Health Department and the partnerships and services it offers that oversee environmental health, disease control, and community and family health. Rodents: Eliminate food supply, block entry points, set traps Mosquitoes: Eliminate stagnant water, use screens and netting, cover up outside, use insect repellent Fleas: Keep grass cut short, groom pets frequently, keep pet bedding clean Lice: Check hair, use shampoo, clean pillows and bedding, don't share hats or pillows Read more Good hygiene and cleanliness Keeping standing water out of yards Cutting grass short Educating people Water treatment Proper sanitation Public Health Merit Badge Requirement 5: Facilities With your parent's and counselor's approval, do ONE of the following: Visit a municipal wastewater treatment facility or a solid-waste management operation in your community. Describe how the facility safely treats and disposes of sewage or solid waste. Discuss your visit and what you learned with your counselor. Describe how sewage and solid waste should be disposed of under wilderness camping conditions. Visit a food service facility, such as a restaurant or school cafeteria. Observe food preparation, handling, and storage. We will support you until your requirements are complete. After completing either one of these, do the following: Compare the four leading causes of mortality (death) in your community for any of the past five years with the four leading causes of disease in your community. This class is taught with a LIVE instructor and the class is interactive. This work is achieved by promoting healthy lifestyles, researching disease and injury prevention, and detecting, preventing and responding to infectious diseases. If you are unable to get a pamphlet, you may also use online and other resources to complete the requirements where appropriate. Cooking food properly, good hygiene, and avoid blood contamination also prevent the disease. You can prevent AIDS by avoiding sexual contact and not using illegal drugs. You can get E Coli from under-cooked ground beef, untreated milk, contaminated fruits and vegetables, and other foods. Also, infants under the age of 1 year old should not be given honey. Viral and bacterial infections are the most common causes of meningitis. It causes

Salmonellosis. Scouts are NOT required to use this learning aid in order to complete the badge. Read more Hepatitis is the inflammation of the liver. It can also be contracted from drinking contaminated water or coming in contact with animals. In your discussion, explain how dishes and utensils should be washed, dried, and kept sanitary at home and in camp. So, while your troop may not be able to go on a weekend campout together during the COVID-19 pandemic, this time could be ideal to learn how to play a new game or work on the car or prepare a first aid kit for the family. Read more Meningitis is an inflammation of the fluid and membranes (meninges) surrounding your brain and spinal cord. If there are updates made to a pamphlet, you'll need to purchase the updated version. Learn how the facility keeps food from becoming contaminated. We also welcome youth 11-17 interested in Scouting to join a class. Overall, public health is concerned with protecting the health of entire populations. Hepatitis C is mainly spread through contact with the blood of an infected person. Read more Emphysema is a lung condition that causes shortness of breath. Your discussion can include the cleanup necessary after the disaster. Discuss what you learn with your counselor. It can be prevented with the usual measures to avoid viruses, such as good hygiene and not sharing utensils. Scouts are resourceful. Class A Uniform is requested to be worn during this Online Badge Class. Find out the education, training, and experience required to work in this profession. A Positive Scouting Focus and Attitude! You will need a laptop or desktop computer, high-speed internet access, a web camera, and a microphone to participate in the live online class. It can be prevented by refrigerating foods within two hours of cooking, cooking food thoroughly, and avoiding food from cans which are damaged are bulging. Public Health merit badge is an elective merit badge. Since smoking causes most cases of emphysema, the best way to prevent it is to not smoke and to avoid second hand smoke. NACCHO has created a tool to help you search for local health departments in your area. Find out what conditions allow microorganisms to multiply in food, what can be done to help prevent them from growing and spreading, and how to kill them. Discuss the importance of using a thermometer to check food temperatures. Discuss your visit and what you learned with your counselor. The primary cause of Emphysema is exposure to airborne irritants from tobacco or marijuana smoke, air pollution, or chemical fumes. Read more COVID-19 is caused by a virus which is primarily transmitted via respiratory droplets. Then, demonstrate two ways for making water safe to drink that can be used while at camp. It can be spread through saliva, genital contact, and through contact with other areas of the skin and the eyes. Read more Encephalitis is an inflammation of the brain, most often caused by a viral infection. The primary sources of the hepatitis A and E viruses are raw or under-cooked food, food handled by people who have not properly washed their hands and water contaminated by animal or human waste. Read more West Nile virus is spread to people through the bite of an infected mosquito. Meningitis can be prevented with hand washing, good hygiene, healthy diet and habits, and covering your mouth when you cough or sneeze. It provides solutions and gives direction on where to find the answers to earn this Badge. Learn about the steps which should be taken to safely produce food in a facility. Clean plate clubPrep dishesThree bucket systemTowel drySearch for more dishesConsolidate graywaterStrain out food scrapsDispose of graywater Read more Use separate buckets for washing, rinsing, and sanitizing. It's also found in the gut of some animals. Read more High blood pressureHeart diseaseStrokeLiver diseaseDigestive problemsCancerAccidentsPoor judgement Read more Cardiovascular diseaseStrokeCancerHIV/AIDSHepatitis B and CLung diseaseMental disorders Read more Public Health Merit Badge Requirement 7: Health Agencies With your parent's and counselor's approval, do ONE of the following: Visit your city, county, or state public health agency.Familiarize yourself with your city, county, or state health agency's website. You can prevent it with good hygiene when handling foods, cooking ground beef to recommended temperature, washing produce, avoiding swallowing water when swimming, and other simple practices. It covers handling, preparing, and storing food safely. For all 10 diseases, explain the type or form of the disease (viral, bacterial, environmental, toxin), any possible vectors for transmission, ways to help prevent exposure or the spread of infection, and available treatments. However, a Blue Card is not COMPLETE until your Unit Leader signs it. Name eight diseases against which a young child should be immunized, two diseases against which everyone should be immunized periodically, and one immunization everyone should receive annually.Using the list of diseases and conditions in requirement 1, discuss with your counselor those which currently have no immunization available. You can prevent COVID-19 or lessen its severity by being vaccinated. Here's how to build it. It can be prevented by wearing long pants and long sleeved shirts outdoors and applying insect repellent. It can also be contracted directly through poor hand hygiene and from pets. Smoking also increases risk for tuberculosis, certain eye diseases, and problems of the immune system, including rheumatoid arthritis. It can spread through sexual contact, illicit injection drug use or sharing needles, contact with infected blood, or from mother to child during pregnancy, childbirth or breastfeeding. The EPIC Difference: Classes taught by registered Badge Counselors who are experts in their field All Epic Badge Counselors have current YPT Certification Dedicated support team to provide prompt answers before, during and after your class Class sizes are limited to 20 scouts to support an engaging and interactive learning environment, and to allow each Scout the opportunity to demonstrate completion of EACH requirement Class Preparation Scouts are expected to come prepared with answers to requirements to the best of their ability. We've previously shared a Scouter's suggestion of merit badges that can be worked on from home and Scout Shop resources for some of those badges. The Badge pamphlet is full of useful information and will help you successfully complete the requirements. Read more Salmonella is the type of bacteria that's the most frequently reported cause of food-related illness in the United States. It can be prevented by washing hands, avoiding crowds during an outbreak, covering your mouth and nose when you sneeze or cough, and avoiding contact with others if you have a fever Read more Syphilis is a sexually transmitted infection caused by a type of bacteria. coli), tetanus, AIDS, encephalitis, salmonellosis, Lyme disease, and coronavirus (COVID-19) are contracted. Please read the description before registering. coli are harmless and even help keep your digestive tract healthy. Read more Acquired immunodeficiency syndrome (AIDS) is a chronic, potentially life-threatening condition caused by the human immunodeficiency virus (HIV). The most common type is food botulism. You can contract it from eating under-cooked meat or eggs, contaminated fruits and vegetables, unpasteurized dairy products, and contaminated processed foods. Other sources include contaminated air, water and soil. E. You can prevent gonorrhea by avoiding sexual contact. See the map Public Health Merit Badge Requirement 8: Careers in Public Health Pick a profession in the public health sector that interests you. Classes start on time. You can prevent Salmonella by cooking meats and eggs, washing raw produce, refrigerating food properly, good hygiene, and avoiding cross contamination when preparing food. We recommend receiving approval to take the course. All About Product Details Specifications Reviews and Ratings Questions and AnswersQ&A All About Product Details Specifications Reviews and Ratings Questions and AnswersQ&A Get daily updates! Download the new Scouting magazine app today. Read more Lyme disease is a bacterial infection you get from the bite of an infected tick. If you do not complete all of your requirements you will be given an incomplete or "partial" Blue Card and have until before your 18th birthday to complete any requirements. Here's what's available as of this posting: MORE ADDED - UPDATED APRIL 28, 2020 MORE ADDED - UPDATED APRIL 30, 2020 MORE ADDED - UPDATED MAY 4, 2020 MORE ADDED - UPDATED MAY 19, 2020 MORE ADDED - UPDATED JUNE 11, 2020 Digital memberships, audio options and digital copy bundles aren't available at this time. Hepatitis can be caused by drugs, alcohol or other toxins, by infection with bacteria, viruses or parasites. They also learn about careers related to public health. When the dormant bacteria enter a wound the cells are "awakened." As they are growing and dividing, they release a toxin which impairs the nerves in the body that control muscles. This email will come from info@epicbadges.com Test ZOOM at least one day prior to class. The Public Health Department also works with community partners to strengthen emergency-preparedness and response capabilities. Public health promotes and protects the health of people and the communities where they live, learn, work and play. Other Resources for the Public Health Merit Badge Log-in 10 minutes before your scheduled class time. Bring supporting documentation of project work pertinent to this badge which may also include a Badge Workbook for reference with notes. Ask Scouter Mom a question or share your ideas with others Public Health Merit Badge Requirement 1: Public Health and Diseases Explain what public health is. In your discussion, explain which vectors can be easily controlled by individuals and which ones require long-term, collective action. It can also be spread by mosquitos and ticks, so wearing long pants and long sleeved shirts outdoors and applying insect repellent are also good measures. Scouts learn about how to prevent the spread of disease while working on the Public Health merit badge. Do you know where your poop goes?! Join us on a recorded tour of this treatment plant to see how poop, trash, and other contaminants are removed from wastewater. It is the science of protecting and improving the health of people and their communities. Read more Lead poisoning occurs when lead builds up in the body, often over months or years. They explore how pandemics happen and what steps can be taken to prevent outbreaks. It spreads easily. Vaccines are available for some strains of hepatitis. Others will provide engaging ways for older Scouts to introduce these concepts to new Scouts. Other recommended measures include avoiding close contact with anyone who is sick or has symptoms, social distancing, avoiding crowded indoor spaces, practicing good hygiene, and wearing a face mask in indoor settings. Vaccinations are available for some forms of bacterial meningitis. It is unacceptable to come unprepared. We will email you a digital Blue Card once you successfully complete all requirements. For any updated requirements, click here. Vector-borne diseases of public health importance are those infectious diseases spread by some organisms, such as insects and rodents, which carry viruses, parasites and bacteria to humans. Find contact information for local health departments using the map. Lead poisoning can be prevented by reducing exposure to lead. This includes washing hands after playing outdoors, cleaning dusty surfaces, removing shoes in the house, running cold water before using, eating a healthy diet, and removing lead based paint. Some of these resources will just give the answers. A day prior to class, we will send a ZOOM link to the email address you registered with. Read more Public Health Merit Badge Requirement 2: Immunization Explain the meaning of immunization. Sponsored Learn more about Scouts BSA Find specific helps for some of the Public Health merit badge requirements listed below. It can be prevented by avoiding sexual contact and avoiding contact with a person who is experiencing an outbreak. Each digital pamphlet costs \$4.99, the same price as hard-copy pamphlets. Read more Tetanus is a serious disease of the nervous system caused by a toxin-producing bacterium. They're compatible with any electronic device; they do not include interactive or enhanced content. Once we send you the Blue Card pass it to your Unit Leader for final signatures - digital or ink? Public Health Merit Badge Requirement 6: Health Dangers Describe the health dangers from air, water, and noise pollution. Describe health dangers from tobacco use and alcohol and drug abuse. Describe the health dangers from abusing illegal and prescription drugs. The potential health effects of noise pollution include: Increased stress levelsSleep disturbanceHearing damageReduced concentrationCommunication development Read more Smoking causes cancer, heart disease, stroke, lung disease, diabetes, and chronic obstructive pulmonary disease (COPD), which includes emphysema and chronic bronchitis. coli (Escherichia coli), is a type of bacteria that normally lives in your intestines. This part is the responsibility of the Scout. That is up to your Unit Leader. You can prevent tetanus by being vaccinated.
